# ValiSpect
# Digitize and Standardize Lifting Inspections

ValiSpect is a purpose-built platform that optimizes and standardizes lifting inspections in alignment with LEEA and ASME standards. It helps inspection teams digitize workflows, ensure compliance, and deliver faster, safer results both on-site and in the cloud.

## Who We Are

**SPA InnoVision builds smart Testing, Inspection, and Certification (TIC) software**

- Focus on Material Labs, NDT, Lifting
- Creator of SPAVault digital TIC suite
- Enables digital transformation while meeting standards

## Why ValiSpect

- **Audit-friendly**, traceable workflows
- **End-to-end** workflow support
- **Compliance-ready** for LOLER, ASME, ISO 9927
- **Customizable** reports and certificates
- **Seamless integration** with ERPs and CMMS
- **Smart scheduling** with due and overdue alerts
- Go **Paperless** with Client Portal

## What Sets Us Apart

- Built with **industry experts**
- **Fast, flexible** deployment and integrations
- Evolving through **real-world feedback**
- **Scale** with your operations
- **Intuitive UI** : Easier onboarding, lesser training
- **Offline access** supporting App

## Key Features

**Client First Approach**
- QR code-based instant reports, photo capture and notes for documentation

**Digital Checklist**
- Digital checklists for all lifting equipment, aligned with global standards

**Cloud Based**
- Cloud-based, secure, with user access controls

**Data Traceability**
- Full asset traceability for history, repairs, and certifications

↓ 95% Missed Expiry Dates

↑ 100% Audit Readiness

↑ 30% Team Efficiency

↓ 50% Inspection Time
